

The Triads of Pythagoras (Bb-D-F) and Jesus (B-D-F#)

Maintaining D288 as the center and adding the arithmetic mean below (B240) and the arithmetic mean above (F#360) results in the minor triad B D F#.
 $B240 + D288 + F\#360 = 888$

Maintaining D288 as the center and adding the harmonic mean below (Bb230.4) and the harmonic mean above (F345.6) results in the major triad Bb D F.
 $Bb230.4 + D288 + F345.6 = 864$

864 = Pythagoras Πυθαγορας
 864 = Of the saints αγιων
 864 = Of the Gods Θεων
